## **Prospecting Licences for hydrocarbons - Application Form**

Applications for prospecting licences for hydrocarbons and any supplementary material may be submitted to the Oil and Gas Department (OGD) by email or by delivery at the address above. An application for a prospecting licence should be submitted in due time for processing and well before application of any planned activities (fieldwork, excursions etc.).

The standard terms for prospecting licences for hydrocarbons (non-exclusive) are stated in OGD's publication "Standard terms for prospecting licences – Hydrocarbons"(March 2009). Fees will be invoiced according to the standard terms.

An application for planned activities (fieldwork, excursions etc.) under the granted licence has to be received by OGD 2 months before the planned activity – see "Guidelines for submitting application for field activities under Prospecting licences for hydrocarbons" (January 2004) under "Fieldwork; Application and Reporting".

Field activities must comply with the "Rules for field work and reporting regarding mineral resources in Greenland (November 2000)". Please note, that there are certain regulations for field activities for specific areas and periods, a field report (standard form) must be send to OGD no later than 1 month after the termination of field activity, and a geological report must be send to OGD no later than April 1<sup>st</sup> , in the year after the field activity.

Offshore exploration activities must comply with the "OGD Guidelines for applications, execution and reporting of offshore hydrocarbon exploration activities (excluding drilling) in Greenland" (December 2011).

Rules and regulations are available on the OGD website [www.businessingreenland.gl](http://www.businessingreenland.gl) and will, on request, be send by mail.

To apply for a Prospecting Licence for hydrocarbons for offshore and/or onshore areas in Greenland please fill out the form below. If the space allocated is too limited, addenda may be enclosed.

## Application for a Prospecting Licence for hydrocarbons (non-exclusive)

### General information

Name:  
Address:  
Contact person:  
Telephone No.:  
E-mail:

### Joint venture

If the applicant is a joint venture, all parties with participating interests should be indicated:

Operator:

### Application for

A new Prospecting licence   
An area enlargement for the Prospecting Licence No. \_\_\_\_\_

### The capabilities of the applicant (Not to be filled in for companies already holding an exclusive licence in Greenland)

Technical capabilities:

Financial capabilities:

Annual report(s) included: Yes  No

If No, please indicate the reason:

### Other information of relevance to the application

**Location of the area applied for**

Onshore areas  and / or offshore areas  in one of the Greenland regions:

West  (areas south of 78<sup>0</sup> N and west of 44<sup>0</sup> W)  
East  (areas south of 75<sup>0</sup> N and east of 44<sup>0</sup> W)  
North  (areas west of 44<sup>0</sup> W and north of 78<sup>0</sup> N, and areas east of 44<sup>0</sup> W and north of 75<sup>0</sup> N)

Each of the three regions is a standard size prospecting area to be applied for.

**If the area applied for is defined as an area within two of the main areas above, the co-ordinates for the corner points delineating the area should be defined with a map enclosed**

Co-ordinates of corner points (Degrees and minutes - clockwise from upper left):

**Enclosures**

Addendum enclosed: Yes  , No. of page(s): \_\_\_\_\_  
If the area is defined by co-ordinates, No. of enclosed maps: \_\_\_\_\_
